Questions at Location:

Date		Who accompanied?	
What property uses did you see or observe signs of (hiking, swimming, bird-watching, nature-study, sports, picnicking, timber, hay, maple sugaring, firewood, cross-country-skiing, snowshoeing, canoeing, agriculture, conserved land etc.)?			
Is there public access to the property? Are there any problems associated with this?			
Were Grant, BDR and previous report reviewed prior to visit?	[] Grant [] previous report [] BDR		
Describe any recent changes that have taken place on the property (i.e. new uses, new structures, change in management etc.).			

describe any general issues or concerns regarding the property and your visit.	
Has anything caused damage to the property (flooding, storms, wind damage to trees, human damage, etc.)?	
Have neighboring land owners or third parties encroached on the protected property? In what way?	
Did you observe any problems or possible violations to the easement (including minor ones)?	
Briefly describe route taken, any helpful landmarks for future monitors?	
Note any special features: endangered species, wildlife, natural or cultural heritage sites, invasive species, etc.	
Is there a sign, kiosk, ect. that identifies the entities that conserved or funded the project? If so, is VCHB included in this list? Does the kiosk or sign have a VCHB plaque?	
Any follow up required after the site visit?
